

Hi Mike,

Once again I want THANK the dept for the traffic enforcement out here on the east side. As much as I bitched about it through the years, I have been giving lots kudos to Officer Ramirez, traffic out here is calming down like I have stated prior.

As I read the police logs today, I see yesterday you guys were on top of your game once again. I think Ramirez got the t/s at 11:35, but two other officers were on point. Unit 4623 needs Kudos, he got a drunk driver off our streets and 4635 did two t/s.

I am so happy to see enforcement I just want to make sure all the officers doing the traffic stops out here get a letter in their file, good job, we see you and appreciate you.

Sorry, Mike, you are going to keep getting these emails because my neighbors and I are so pleased and we want to let you know. Would love to do some sort of meet and greet out here for you, in some safe manner if possible.

I used to deal with Michelle Sterns's way back when, when I got the neighbor watch signs that we all chipped in for. I loved neighborhood services and was involved in my hood, I see an opportunity still to work with the police dept what do you think?

Be safe,
